EDUCATION

Bachelor of Science in Data Science

Princess Nourah Bint Abdulrahman University

- GPA: 4.64 / 5.00

Aug. 2023 – Expected 2027

Riyadh, Saudi Arabia

EXPERIENCE

Summer Researcher

Alfaisal University AI Research Center

- Conducted a Human-Centered AI study on radiologists' trust in AI
- Designed surveys for CT triage and mammography using the INTRPRT framework
- Co-authored a research paper and presented the project at SURE 2026

Jun. 2026 – Aug. 2026

Riyadh, Saudi Arabia

PROJECTS

Machine Learning Predictive Model | Python, Pandas, Scikit-learn

- Built classification models to support predictive decision-making
- Applied feature engineering and model evaluation techniques to improve prediction reliability

Data Engineering Pipeline for Game Classification

- Developed 2 end-to-end data pipelines covering ETL and ELT workflows
- Created dashboards to visualize and interpret game classification insights

Real Estate Market Analysis Dashboard | Power BI, DAX

- Built an interactive dashboard using 5 connected real estate tables
- Created KPI cards, slicers, DAX measures, and customer analysis visuals across 4 pages

LEADERSHIP & VOLUNTEERING

WiDS Riyadh Co-Ambassador

Women in Data Science Worldwide

- Support data science community initiatives and events
- designed and delivered the “When Charts Come Alive” workshop

Sep. 2026 – Present

Riyadh, Saudi Arabia

Management Lead

Tech Minds Club

- Coordinated technical events, team activities, and participant engagement

Aug. 2025 – Dec. 2025

Riyadh, Saudi Arabia

Member

AI Hub

- Participated in AI and data science workshops and technical sessions

Aug. 2025 – Present

Riyadh, Saudi Arabia

CERTIFICATIONS

IBM: Data Engineering Professional Certificate, Machine Learning Professional Certificate

Technical: Data Science in Python – University of Michigan, Database Foundations – Oracle, CCNA Introduction to Networks

Research: Summer Undergraduate Research Experience (SURE) 2026 – Alfaisal University AI Research Center

SKILLS

Programming: Python, SQL, R, Java

Libraries and Tools: Pandas, Scikit-learn, PySpark, NumPy, Matplotlib, Power BI

Databases: MySQL, PostgreSQL

Core Skills: Machine Learning, Predictive Modeling, Feature Engineering, Data Analysis, ETL, ELT

Soft Skills: Communication, Teamwork, Problem Solving, Leadership, Time Management, Adaptability

LANGUAGES

Arabic

English
